Duration:

4 days

Schedule/Programme:

27th-30th November 2019

Summary:

The dignitaries laid focus on the management of different waste materials. In all, more than 1000 environmentalists and representatives from 30 countries participated in this Conference. In order to gratify the Sustainable Development Goal, sustainable management of garbage and waste products apart from conservation of resources has become the basic objective of United Nations. Keeping in view of these aspects, such International Conference was being organized.

In fact, the International Conference on Sustainable Waste Management towards Circular Economy movement(IconSWM-CE) was initiated for better waste management and environmental protection since the year 2009 through generating awareness and bringing all the stakeholders together from all over the world under the aegis of the ISWMAW. The IconSWM

has become one of the biggest platforms in India for knowledge sharing, awareness generation and encouraging the Urban Local Bodies (ULBs), Government Departments, Researchers, Industries, NGOs, Communities and other stakeholders in the area of Waste Management in the country. The outcome of the Conference was aptly useful for such organizations and people.
