PROJECT SARTHI

Project Name :- Sarthi

Date of project execution :- Saturday, September 17, 2016

Purpose of visit :- To motivate the children to keep in their lives.

Summary

The project sarthi was organized on 17th September 2016, at Chetana Institute Special Education, with the help of our volunteers. It began at around 11 am and continued up till 1pm. We were a little nervous at first, because it was the first execution of this project and also there could be some communication barriers. As a stranger to them we entered the classroom and we were surprised by the way children there greeted us with smiles. The children were so happy on seeing us, it took us a little time to mix them, but after that the children became comfortable and started playing with us. We had a fun time designing our thoughts on the paper, slowly more and more children came attracted to us. After having a short intro session and getting to know each other a little more, we all proceeded to a hall. In the hall we children doing different activities, it was good to see so many children away from their boring life, having fun with all the members of NSS Sarthi team. We had some children making paintings of houses, hand and many other things. Then we played short games like soap bubbles and this joy session with a dance. Packets of biscuits and paper fans were distributed among the children. Leaving the premises of Chetana School we were satisfied as we were able to make these children happy.
