NSS Orientation and Volunteer Recruitment

Saturday and Sunday, 18th and 19th August, 2018

We, the volunteers of NSS SCE organised a recruitment process for all the new participants who wanted to join our NSS family. The recruitment process started with an orientation on Saturday for all 2nd years. Each group explained about their agendas and goals to them in their respective presentations. On Sunday, the recruitment process continued with interviews. Three volunteers of NSS were grouped together and allotted different panels. Interview questions were based on stress management and situation handling. We also tried to dig out as much as information as we can about them. The most impressive thing about the whole event was their interest to contribute to society with NSS. Around 400 people turned up for interviews which included Photographers, Designers, Painters, Singers and Dancers. They will be selected on the basis of their attention to presentation and wittiness of answers. Volunteers are excited to work with new people, who indeed look enthusiastic as well.
