

BLOOD DONATION CAMP ORGANISED BY:-NSS SOEE

DATE:-24TH NOVEMBER 2019(4 HOURS)

Donating blood is one of the greatest ways to help humankind. By doing so, we save someone's precious life, and that is a blessing in itself. There are people who hesitate to donate blood if they aren't given monetary returns or because of the various myths surrounding it. Blood donation is healthy for our body because it makes our blood less viscose which will help in combating cardiovascular and other diseases. 38% of the population all over the world is capable of donating blood; however, less than 10% do so. There are many people who die because of shortage of blood while undergoing treatment.

On 24th Nov,2019,blood donation camp was organized by **NSS SOEE,KIIT** under the guidance of programme officers of **NSS SOEE** Prof.Satyadeep Das and Prof.Sruti Singh.

Medical team from red cross society from **Cuttack** visited to the college(KIIT) for the camp.

The event was organized inside the building of School of Electronics.

The event process included:

1. Medical condition of each and every donor was consulted individually by the doctor.
2. If he/she passed through that check process,they were sent to donate blood.
3. Many volunteers were assigned the task to support the donors as they may feel weak after donating blood or may faint.
4. Special measures were taken after the donors donated the blood.
5. They were provided energy giving foods like glucose,fruits and eggs.

Over 200 people including students of KIIT,staff members and common people donated blood .There was an enthusiasm in the air as they were feeling good because their contributions can save many lives!
