PROJECTA AROGYA: *“HEALTH IS WEALTH*

DATE:- 10TH NOVEMBER 2019

TOPIC:- IMMUNIZATION

NO. OF VOLUNTEERS PARTICIPATED:- 22

LOCATION:- SHIKHARCHANDI SLUMS

TIME :- 11:00 AM - 1:30PM

DURATION:- 2 HOUR 30 MINUTES

Volunteers from project Aarogya visited Shikharchandi slums, Bhubaneswar on 10th November 2019, at 11:00 am. The location is around 10 minutes away from the campus of KIIT university. A team consisting of 22 members from project Aarogya left for the destination at around 11:00 am on foot. This was the first visit to the slum area for the new members after joining Aarogya and again a new learning experience for all the members who were a part of this. The aim of this visit to the slum area was to spread awareness about the topic “Immunization”. This topic was chosen to give a brief idea and to do a short survey about the essential vaccines especially for the children under the age of 5 years. We reached the destination at 11:20 am and all the groups took different lanes to finish the task on time. We went to each house and asked whether there any child who falls in the age group of 0-5 years. We made sure whether they had a vaccination for Polio, Hepatitis, Measles etc. We also informed them about Tetanus and showed them PowerPoint Presentation on “Immunization”, prepared by 4 members of Aarogya. After finishing the task, we gathered at a common point of Shikharchandi slum and asked all the children to join us initially. We played a game with them in which they were asked to throw a paper ball into the bucket. In short, the visit was very informative for the volunteers of Aarogya and the people of the slum. It was a joyous day because of the presence of the little kids present there who didn't fail to bring a smile on our face by showing their enthusiasm in whatever we planned for them.

Memories:
