

**ONLINE VANMAHOTSAVA CELEBRATION**  
**ORGANISED BY:-NSS SOEE**  
**DATE:-7<sup>TH</sup> JULY 2020(2 HOURS)**

**“When you plant a tree, you plant a hope for future.”**

**KIIT NSS Bureau**, School of Electronics Engineering organized a **virtual Van Mohotsava Program** through zoom meet. Prof.Satyadeep Das, Program Officer was also present to guide the meeting. Just like oxygen and food, trees and plants play an important role in the ecosystem. To celebrate the importance of nature and its surroundings Vanmahotsava is celebrated annually for a week in the month of July. On this day people plant trees and spread awareness about the harms and effects that the deforestation of trees and greenery around will do to us. It is the duty of every citizen to plant down saplings and return greener back to the nature where it truly belongs. We the volunteers of **NSS SOEE** took pledge to plant saplings after lockdown and keep our ecosystem green and healthy.
