**PROJECT LIPI:***"KNOWLEDGE IS POWER"*

**DATE:-**Wednesday,September,2019

**PLACE**:- BHUBANESWAR

**EVENT**:-Prasanti Vihar Project U.P. School visit report.

**TIME**:- 8:00am.

**DURATION**:- 3 hours

The school is situated at a distance of 2km from KIIT University. We left for the school at 7:30am. We reached there at 8:00 am. It was the first half,so the classes had just started. We talked with the teachers,who led us to the different classes to conduct our session which was of 1 hour. Our main motive this time was to check whether there is improvement or not in the students.We decided to take classes from class 3 to 8. Since we were taking classes in the first half of the day,the children were a bit in a refreshing mood so they welcomed us with smiles. Teachers as well as the students cooperated with us and showed interest towards learning new things.We divided ourselves , and took up different classes. Our main focus was on teaching English language, so that students are able to speak and read clearly. This would also help them to communicate better,which is our goal.

After the session got over , we interacted with the students a little more. We asked them if they liked our session,and we were happy with the response which we got.We really enjoyed spending time with them. After that we returned to KIIT. Everyone was really happy, as the visit was a hit. We were able to do what we had planned for the day.We also plan future visits to that school, so that we can continue with the syllabus and achieve the mark which we have set. We will try to bring the change which we want to see in the students, and we will work hard for this.
