“As we lose ourselves in the service of others, we discover our own happiness”.

A **National symbol** is a symbol of any entity considering and manifesting itself to the world as a national community: the sovereign states but also nations and countries in a state of colonial or other dependence, federal integration, or even an ethnocultural community considered a 'nationality' despite having no political autonomy.

National symbols intend to unite people by creating visual, verbal, or iconic representations of the national people, values, goals, or history. These symbols are often rallied around as part of celebrations of patriotism or aspiring nationalism (such as independence, autonomy or separation movements) and are designed to be inclusive and representative of all the people of the national community.

Keeping this in our mind we the volunteers of **NSS SOEE** on 10th August 2019 the organized a Wall Painting session in the village of **Padmakeshripur**. The theme was related to represent the national symbols of our country. Main objective of this wall painting was to teach the children of the village about the national symbol of our country. A total of Eight diagrams were painted on the front wall of the primary school of Padmakeshripur each of them carrying the message of our national symbol of our country. The participation of NSS volunteers was quite impressive.
